To whom it may concern:

I am requesting an appeal for the late submission of our form 470 (and subsequently the form 471) regarding cabling. We submitted a form 470 on 3/13/17 for wireless access points, a wireless controller, and switches to replace our existing infrastructure. This is our first year filing for eRate reimbursement and my first year as a technology coordinator so we are very unfamiliar with this process. We did not realize until after the form 470 window closed that we needed to also file a separate form 470 for the cabling.

Upon learning this, I filed a separate form 470 for the cabling on 4/14/17, one day after the on-time filing deadline. We waited the 28 days for competitive bidding to close, and I filed the form 471 for the cabling one day late (needing to wait the 28 days), on 5/12/17.

I've learned a lot through the eRate process so far this year and now understand how the bidding process and form 470 filings work. Thank you for your time and consideration of our appeal.

Don't hesitate to contact me with any questions.

Best,
